

DUBAI ROADS AND TRANSPORT AUTHORITY (RTA) - TRAFFIC MANAGEMENT POLICY 2025

1. Traffic Congestion Management

- Heavy traffic on major highways like Sheikh Zayed Road is monitored 24/7.
- Immediate response teams are dispatched for accidents blocking lanes.
- Smart signals adjust timing based on traffic flow density.

2. Public Transport Feeder Services

- Feeder buses must operate with a frequency of at least every 15 minutes during peak hours.
- Requests for new routes in areas like Discovery Gardens or JVC are reviewed quarterly.

3. Parking Regulations

- Paid parking zones operate from 8 AM to 10 PM, Monday to Saturday.
- Unauthorized parking in reserved slots results in a fine of AED 500.
- Customer Happiness Centers must utilize smart parking sensors.

4. Road Maintenance

- Potholes reported on main roads (e.g., Hessa St) must be repaired within 48 hours.
- Construction noise permits are valid only between 7 AM and 8 PM. Night work requires special exemption.
